DIRECTIONS FOR USE:

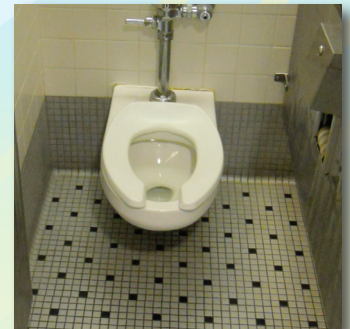

Always test this product first in an inconspicuous area for product compatibility.

Use product full strength for hard mineral deposits and stains. Do not allow to remain on surface more than the recommended times stated below for each task. Never let product dry. Rinse product thoroughly with water promptly after use. The use of a soft scrub pad will help speed up stain removal. Depending upon severity of soil content repeated applications may be required for desired results.

DO NOT USE on marble, terrazzo, colored grout, polished aluminum or metallic glazed surfaces.

TOILET BOWLS / URINALS:

Drain Water from toilet or urinal. Apply WATER STAIN BREAKER™ directly on affected area. Let soak for 5-10 minutes before brushing or swabbing with a bowl swab. Rinse area with water by flushing several times. Repeat for difficult stain build-up. Can be also used to remove rust stains, scum lines, uric acid deposits. Stains are broken up and washed away. Safe on plumbing and septic tanks.

SHOWER DOORS, SHOWER STALLS, BASINS, BATHTUBS, SINKS & PORCELAIN FIXTURES:

Apply WATER STAIN BREAKER™ directly on affected area. Let stand for 2-3 minutes before brushing or swabbing down with a bowl swab. Rinse area thoroughly with water. Soap scum, lime deposits, water spots will rinse easily away. Reapply if necessary. Safe for use on Fiberglass.

OUTSIDE WINDOW HARD WATER DEPOSITS:

Never use this product in direct sunlight or on hot glass. Use this product only when glass surface is cool. Never allow product to dry on glass surface. Test this product first in an inconspicuous area for product compatibility. Have rinse water available at all times.

Apply WATER STAIN BREAKER™ directly on affected area. Let stand for 1-2 minutes maximum. Flood rinse area with water and then squeegee glass surface dry. The use of short repeated applications is recommended to prevent any glass hazing or permanent damage.

NOT FOR USE ON AUTO GLASS, ETCHED OR SCRATCHED GLASS OR DOMESTIC MIRRORS. USER ASSUMES ALL RISKS.

CHROME & METAL FIXTURES:

Removes rust and oxidation. Apply WATER STAIN BREAKER™ directly on affected area. Let stand for 1-2 minutes maximum. Rinse area thoroughly with water. Leaves chrome, brass, copper, stainless steel and mild steel bright and shiny. Wipe dry with a clean soft cloth.

OTHER USES:

Swimming pool walls & deck areas, water meters, drinking fountains, chrome auto wheels, concrete, air conditioner coils, antique bottles.
